EDUCATION

B.E Computer Science & Engineering

Poojya Doddappa Appa College of Engineering

12/2021 - 06/2025

8.61 CGPA

Pre-University Education

Disha PU College

07/2019 - 04/2021

91.66%

10th (SSLC)

Maharishi Vidya mandir High-School

06/2009 - 06/2019

84.64%

WORK EXPERIENCE

Full Stack Developer

CraftySogo

01/2025 - 06/2025

Achievements/Tasks

- Worked at CraftySogo as a Full Stack Developer, I developed some good looking responsive web applications using **Angular** and **Node.js**. I built **RESTful APIs** connected to a PostgreSQL database, Implemented user authentication and authorization systems using **JWT** and session-based security mechanisms. and implemented my skills to develop the good looking web application UI for the better user Experienc.

Skill India - AI Data Quality Analyst

ROOMAN

08/2024 - 01/2025

Achievements/Tasks

- Worked as an AI Data Quality Analyst intern at Skill India, specializing in preparing and refining datasets for AI and machine learning applications. Collaborating with teams to maintain high data standards, enabling the development of reliable and efficient AI solutions.

Intern- 360 Degree Monitoring

Prodevans Technologies

12/2023 - 02/2024

Achievements/Tasks

- Completed an internship on "360 Degree Monitoring" utilizing Zabbix to monitor and analyze system performance, network health, and application availability. Configured alerts and dashboards to ensure real-time issue detection and resolution, improving system reliability.

SKILLS

Languages: JavaScript, Java.

Web Technologies: HTML5, CSS3, BootStrap.

Frameworks & Libs: Angular, React, Node.js, Express.js

Tools: Git, Github, Postman, Docker, AWS

Databases: Mysql, Postgresql

Core Concepts: API Integration, JWT Authentication, Cloud Deployments

Soft Skills: Networking, Adaptability, Quick Learner, Attention to Detail, Problem Solving

PERSONAL PROJECTS

Text-to-Image Generation Application

(01/2025 - 06/2025)

- Developed a cross-platform mobile application using React Native (Expo) and integrated a diffusion-based AI model via Replicate.com to convert natural language text prompts into realistic images. Implemented Strapi CMS as the backend with PostgreSQL (Neon.tech) for data management and Cloudinary for media storage. Focused on user-friendly UI/UX and real-time image generation capabilities.

URL - Shortener (06/2025 - 07/2025)

- Short-URL is a web app built with Node.js, Express.js, and EJS that lets users shorten and manage links. It includes secure user authentication with signup/login functionality. Authenticated users can generate short URLs and get redirected to the original links. It demonstrates routing, and session management.

AI-Code Reviewer (11/2025)

- An AI-powered web application built with React, Node.js, and Express.js that automatically reviews and analyzes source code using Google's Gemini Flash-2.5 model. It provides instant feedback, suggestions, and quality insights through a clean, responsive interface. The frontend communicates with backend via Axios API, enabling real-time AI-driven code evaluation and improvement recommendations.
